EDUCATION

IUBAT — International University of Business Agriculture and Technology
Bachelor of Science in Mechanical Engineering | CGPA: 3.43 / 4.00

Dhaka, Bangladesh
[January 2020 – December 2023]

PROFESSIONAL EXPERIENCE

Bangladesh Japan Information Technology (BJIT)
Mechanical Design Engineer

Dhaka, Bangladesh
[July 2025 – Present]

- Designed and developed mechanical components and systems through precise 2D and 3D models and engineering drawings using multiple CAD tools, maintaining a 97% design accuracy rate while managing CAD data and revision control through PLM systems.
- Validated designs for quality, compliance, and manufacturability through rigorous verification checks, reducing design rework by 20%.
- Collaborated with line managers, project managers, offshore engineers, manufacturing teams, and global partners (Etteplan, Halton Group) on technical documentation, improving cross-functional alignment and reducing production delays by 25%.
- Leveraged AI/Copilot and Work Breakdown Structure (WBS) to streamline documentation workflows, cutting report turnaround time by 15% and project buffer time by up to 30%.

Shimizu Corporation (Shimz)
Mechanical Design Engineer

Dhaka, Bangladesh
[May 2025 – June 2025]

- Prepared mechanical shop drawings (HVAC and plumbing) for steel structure building projects using CAD tools, maintaining 97% accuracy and full compliance with project specifications, QA, and Japanese quality standards.
- Coordinated with design engineering teams (BOSTON, RELIANT, P.Point) on CSD and shop drawings, attending 10+ project meetings with designers and contractors, reducing design revision cycles by 25%.
- Conducted on-site inspections and field data collection to verify local compliance and design accuracy, cutting drawing rework by 20% through field-verified documentation.

KED Solution Ltd.
Jr. Design Engineer (MEP-Mechanical)

Dhaka, Bangladesh
[March 2024 – April 2025]

- Designed and reviewed Fire Safety, HVAC, and Plumbing systems per NFPA, BNBC-2020, ASHRAE, and IPC standards, performing cooling load, ventilation, pump, and tank calculations; site visits improved design-to-field accuracy by 20%.
- Prepared shop, working, and as-built drawings using AutoCAD and Revit MEP 3D, including fire protection systems (hydrant, sprinkler, pump layouts), across 21+ MEP projects.
- Coordinated MEP system integration with clients/contractors and managed BOQ/cost estimates for HVAC, plumbing, and fire systems with 95%+ accuracy.

LEADERSHIP EXPERIENCE

IMechE IUBAT Student Chapter (IISC)
Student Advisor

Dhaka, Bangladesh
[January 2022 – December 2023]

- Advised and mentored student members in developing technical engineering skills through structured learning and apprenticeship programs.
- Promoted engineering innovation and excellence within a non-profit academic chapter environment.

- Organised technical events and supported chapter activities focused on HVAC&R and sustainable building technologies.
- Active member of the Bangladesh Chapter since 2021, contributing to knowledge-sharing and professional development initiatives.

Debating Forum of IUBAT

Dhaka, Bangladesh

Executive

[January 2020 – December 2020]

- Coordinated workshops and contributed to event organisation, supporting overall club operations and member development.
- Actively participated in debate activities and club initiatives throughout the tenure.

TECHNICAL SKILLS

CAD & Visualization	: SolidWorks, Siemens NX, Inventor, Fusion 360, Tekla, Creo, Revit, AutoCAD.
Simulation Software	: Ansys Fluent, MATLAB & Simulink.
PLM Software	: Teamcenter, SAP, Autodesk Vault.
Programming Languages	: C/C++, Python, HTML/CSS, Git, GitHub, GitHub Actions, VS Code.
Specialized Libraries	: NumPy, Pandas, Scikit-learn, Plotly, TensorFlow, PyTorch.
Render & Editing	: KeyShot, Blender, Adobe Illustrator, Adobe Photoshop.
Others	: Microsoft Office (Word, Excel, PowerPoint), Windows, Google Workspace.

SOFT SKILLS

Teamwork	: Collaborative mindset with experience in group projects and team environments.
Multi-tasking	: Manages multiple tasks and priorities simultaneously without compromising quality.
Leadership	: Experience leading teams, delegating tasks, and driving project goals.
Analytical & Problem-solving	: Breaks down complex problems and delivers effective solutions.
Adaptability	: Rapidly adapts to new tools, technologies, and environments.
Conflict Resolution	: Resolves disagreements constructively to keep teams positive and productive.
Communication	: Delivers clear, concise, and professional communication across all levels.
Languages	: English (Professional) and Bengali (Native).

HONORS & AWARDS

- Recognized twice for Academic Excellence with Dean's certificates from the University. [January 2020 – June 2020]
- Secured 3rd Place in the British Council Book Reading Program 2020. [January 2020]
- Appointed as Logistics Officer, ASHRAE IUBAT Student Branch in recognition of active contribution and dedication. [January 2022 – December 2023]

CERTIFICATIONS

- Certified SolidWorks CAD Design Professional (CSWP). [September 2025]
- Certified SolidWorks Drawing Tools Professional (CSWPA-DT). [December 2025]
- Certified SolidWorks Sheet Metal Professional (CSWPA-SM). [November 2025]
- Certified SolidWorks Electrical Design Associate (CSWA-E). [December 2025]
- Certified SOLIDWORKS 3DSwymmer Associate (CSWA-3D). [December 2025]
- Certified SOLIDWORKS Associate (CSWA). [November 2025]
- L-1 to L-3 Information Manager. [May 2026]
- Artificial Intelligence Fundamentals (IBM). [June 2026]
- AI Programming with Python. [February 2026]
- Elements of AI Agent. [April 2026]

- ISO 19650. *[May 2026]*
- IFC Training. *[February 2025]*
- Revit Advance. *[December 2025]*
- Revit MEP Course. *[February 2025]*
- Revit Architecture Course. *[February 2025]*
- AutoCAD Mechanical Design. *[November 2025]*
- Introduction to Notebook LM. *[April 2026]*
- ISO-101-Information-Security. *[August 2025]*
- Air Terminal Design Training. *[February 2025]*
- HVAC Basics and Psychrometry. *[February 2025]*
- Project Management Foundations Requirements. *[December 2025]*
- Requirements Elicitation for Business Analysis Stakeholder. *[November 2025]*

PROFESSIONAL AFFILIATIONS

- SOLIDWORKS Certification Program. *[August 2025 – Present]*
- American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE). *[January 2021 – Present]*
- American Society of Mechanical Engineers (ASME). *[March 2026 – Present]*
- International Association of Engineers (IAENG). *[May 2026 – Present]*
- Institution of Mechanical Engineers (IMechE). *[January 2026 – Present]*
- National Fire Protection Association (NFPA). *[April 2026 – Present]*
- American Welding Society (AWS). *[April 2026 – Present]*
- Debating Forum of IUBAT. *[January 2020 – December 2020]*
- Autodesk HUB. *[January 2026 – Present]*
